Committee Has Water Confab

C. of C. group Discusses Problems with Officials of Public Utility

A special committee from the Torrance Chamber of Commerce met Monday with officials of the Torrance Water, Light and Power Company to discuss the relationship of the company with the consumers. The committee was as follows:

Dr. George P. Shidler, James W. Leach, Sam Levy and Harry H. Dolley.

Results of the conference, as reported to the Herald by Dr. Shidler were as follows:

1. The company contends its rates cannot be lowered at this time because the company is not realizing over 8 per cent profit on its investment; that rates will be adjusted whenever increased volume of business increases profits beyond the 8 per cent allowed by the law.

2. Rates here are not excessive when compared with those of other cities. Where advertised rates are low, the officials contend, a high service charge is in effect.

3. The company will provide extensions when demands of population justify them.

4. The company has installed a chlorinator, which is expected to eliminate objectionable odor from Torrance water and insure its purity for all time.

Dr. Shidler will make a detailed report of the conference at the Chamber of Commerce luncheon next Wednesday.

City Broke, Will Borrow \$10,000

The city of Torrance is "Broke." City Treasurer Harry Dolley Tuesday night informed the council that it would be necessary to borrow \$10,000 to carry the city through until the first of the year when tax collections are received.

The council accordingly passed a resolution authorizing the treasurer to issue warrants, which will be honored by Torrance banks and held until they are taken up when tax money is received in January. The banks offered to hold the warrants for 6 per cent interest.
